Hi Marty,
I'm happy to work with any DMIT students who are analyzing simulation data. Here is a link to my paper on google drive:
https://drive.google.com/a/pdx.edu/file/d/0B1wL5GsS7vAiU05NTkJRNkNHYms/view?usp=sharing

There is a specific change recommended in the data collection section for NetLogo users, which I will go over for anyone intending to use NetLogo.
