Engage in a world-class education in Science, Engineering and Computer Science at Portland State University.

Centered within Oregon's largest metropolitan and technical region, students at Portland State University have unique opportunities to study and work with some of the country's leading researchers and innovators. Through partnerships with regional industries and organizations, students explore real-world challenges while engaging in hands-on learning.

Numerous undergraduate and graduate degrees in Science, Engineering and Computer Science allow you to explore your educational options.

Some of the exciting research happening at PSU includes:

1. Zero-gravity research that helps NASA understand the effects of space on human bodies;
2. Nanoscale materials being developed as building blocks for electronic devices;
3. Intelligent Transportation Systems research addressing society's transportation challenges;
4. Exploration of deep sea vents and their microbial communities.

For more information about PSU's undergraduate programs in Science, Engineering and Computer Science visit our booth at the **Intel International Science and Engineering Fair** or give us a call at **503-725-3511** or **800-547-8887**, e-mail us at admissions@pdx.edu or visit our Web site at www.pdx.edu/admissions.
