## **MILOSEVIC HONORED WITH THE 2004 DAVID I. CLELAND PROJECT MANAGEMENT LITERATURE AWARD**

**Anaheim, California USA** – Project Management Institute (PMI), the world's leading not-for-profit advocacy organization for the project management profession, today announced it had awarded Dragan Z. Milosevic, PhD, PMP with the Institute's 2004 David I. Cleland Project Management Literature Award for his book entitled *Project Management Toolbox*.

The award recognizes and honors the best project management literature published during the previous calendar year and seeks to distinguish the author for his or her significant contribution and for advancing the state of the art practice of project management knowledge, practices, procedures, concepts or other techniques that demonstrate the value of using project management.

The *Project Management Toolbox* addresses a vacuum that has long existed in the practice of project management which is a reference and roadmap for the practical use of the tools of project management. In his book, Milosevic provides a complete operating procedure for each of the major project management tools, plus a step-by-step process for constructing a project management toolbox for any organization which will help managers successfully complete all project deliverables and objectives.

Dr. Milosevic combines academic theories and a deep understanding of the unique nature of companies in shedding light on the real-world needs of the program and project manager. The practical advice contained in this book is designed to boost project managers' performance as measured in faster completion of projects, more repeatable project results, and more successful concurrent projects.

**- more -**

A leading authority on program and project management, Milosevic earned his credentials as a project manager in the private sector managing large projects around the world. As Associate Professor of Engineering Management at Portland State University in Oregon, he has developed practical tools and innovative approaches to the tradition and current challenges of project management. As a consultant with Rapidinnovation, LLC, an executive consulting company, Dr. Milosevic helps leading companies streamline their project and program management models to ensure profitability.

Professor Milosevic holds a Bachelor of Science, Master of Business Administration and PhD in management, all from the University of Belgrade, and has been bestowed PMI's prestigious Project Management Professional (PMP<sup>®</sup>) credential. In addition to *Project Management Toolbox*, he has written extensively and his works have been published in major academic and management publications worldwide.

The award was presented to Milosevic at the PMI Awards Ceremony which was held in conjunction with PMI's Global Congress 2004-North America on 23 October 2004 in Anaheim, California USA.

###

**About PMI:** With more than 140,000 members in nearly 150 countries, Project Management Institute (PMI) is the global advocacy organization for the project management profession. PMI is actively engaged in setting professional standards, conducting research and providing access to a wealth of information and resources. PMI also promotes career and professional development and offers certification, networking and community involvement opportunities.

For more than 35 years, PMI has advanced the careers of practitioners who have made project management indispensable in achieving business results. For more information, please visit [www.pmi.org](http://www.pmi.org).
