Composite Solid

Designing a Constructivist Industrial Solid

Rules: Two (2) negative volumes min. [one must fully penetrate], No line is to be straight for its entire length [or 3"], No shape is to be a mere horizontal / vertical extrusion.

Sketch in axonometric (8 versions min.), All six (6) orthographic views and (4) axonometrics should be copied onto 8 1/2" x 11" Xerox paper, and pinned to wall for discussion. If the form is too complex or too boring, then the studio shall assist you in re-designing it. Max size 8"x8"x10", rectangular form should not be perceived.

Issued: Monday, 13 January 2003

Due: Wednesday, 15 January 2003
