Geog 497/597	..	X
Geog 409/509 <i>(by arrangement)</i>	X	X	X	..
Geog 410/510	X

GIS Program

The Portland State Geography Department has a curriculum of 13 regularly-taught courses and several other occasional courses (Geog 407/507, 409/509, 410/510) devoted to the areas of GIS, Remote Sensing, Cartography and Spatial Quantitative Methods. Courses are available at both the undergraduate and graduate levels. A very popular Graduate Certificate Program in GIS provides professional training for those not desiring to embark on a graduate degree. For further information on Geography offerings, call 503/725-3916 or email geog@pdx.edu.

Several additional courses are offered in the Geology Department and in the Urban Studies and Planning Program. Contact those Departments for details.

Prerequisites and Sequencing of Classes
