## Appendix 2: Mock up of the PACE

The actual form is more complicated than this. For each ESM course that students have taken there will be a set of learning outcomes and student-oriented questions about how confident they are that they learned this and related outcomes. If they have completed 5 ESM core courses that might be 30 to 50 questions they have to respond to.

## **ESM-required courses for an Environmental Studies Degree**

	Student input								
	ESM	ESM	ESM	ESM	How confident	ESM	ESM	ESM	
Learning objective	1	2	3	4	are you?	5	6	7	ect
Critical thinking	1	2	2		very		3		
modeling systems	1	1		2	moderate	3	4		
simulating decisions					very			2	
interpreting data		1			very				
develop research									
quest.		1			very		2		
framing hypotheses	1			2	moderate		3		
field and lab methods		1			very			2	
analyzing data		2			weak	2			
library skills		2			weak	2			
writing a research									
paper	1	1	2	2	very	3	3	4	
presentation to group	1				very	1			
collaboration skills	1			4	not at all				
variability and scale				3	weak				
population ecology					very			2	
landscape ecology				1	very	2			
resource									
management				2	moderate	2		3	
conservation theories		1			weak		2		
etc/
