

HUMAN NATURE is to have no natural nature

Human - Mind - Ideas - Subject(ive)/Object(ive) - Theoretical - Science - Value-free - Beliefs & Values

Animal - Body - Action - Object(ive)/Subject(ive) - Empirical - Politics - Value-laden - Behavior

We do theory all the time: Common Sense

Common - prevalent

Common - shared, communal, implying community (a “Canopy”)

Common - base, vulgar, rough, unsophisticated

Sense - a physical faculty by which the body perceives an external stimulus

Sense - perceived and registered by one or more of the five senses

Sense - feeling that something is the case
