

Organic Chemistry I

Course Ref. No. 10673
Tu, Th 8:00 - 9:50 am
Hoffmann Hall

Professor Carl C. Wamser
Office: Science Bldg 1, Room 327A
Office Hours: Tues, Wed, Thurs 10:30 - 11:30 am

Textbook: *Organic Chemistry*, 8th ed., by F. A. Carey and R. M. Guliano, and Sapling Learning online homework are required. Highly recommended are the Student Solutions Manual and a molecular model kit. Various molecular model kits are available in the PSU Bookstore.

Online Resources: Most of the elements of this course will be accessible through the course web page at <http://chem.pdx.edu/~wamserc/C334F12/>. Some activities will use Sapling or Desire2Learn (D2L) (also accessible from the course web page). The Chemistry Commons (SB1-221) has internet connections and is staffed with chemistry graduate students who serve as tutors.

E-Mail: D2L has a Discussion List feature that will allow students to post messages. You may use this like open office hours to communicate general information to share with other class members. I can also be reached through my personal e-mail address (wamserc@pdx.edu).

Class Schedule: We will cover Chapters 1 - 9 from the text, following the schedule on the back.

Quizzes and Homework: For each chapter, there will be two quizzes and one online homework assignment. The **pre-quiz** (5 points) is done in D2L within a specific time frame. For example, Pre-Quiz 1 will be available on D2L only from Tuesday, 9/25, to Thursday, 9/27, at 7:30 am. Pre-quizzes alert you to the main points in the chapter and encourage your reading the chapter before the lecture coverage. The **chapter quiz** (10 points) will be given at the beginning of a class, with some time allowed for going over any questions before the quiz. **Online homework** (5 points) will be done using the Sapling program that is coordinated with your textbook; you will see a set number of questions from each chapter (typically 25), and you need to have Sapling mark at least 50% of your answers as correct in order to get 5 points. Quiz, pre-quiz, and homework points are on the same scale as exam points. The lowest scores of the nine quizzes, pre-quizzes, and homeworks will be dropped. There will be no make-up quizzes or pre-quizzes nor late homework accepted.

Exams: There will be three midterm exams, worth 100 points each, and a final exam, worth 200 points, given in class as indicated on the schedule. Missing an exam will require a written medical excuse, in which case an appropriate fraction of the final exam score will replace the missed exam. There will be no make-up exams.

Extra Credit - E-Mail Molecules: Students are assigned a set of nine organic compounds to investigate, with information returned weekly via D2L. Each molecule returned correctly will be worth 2 points extra credit, up to 18 points total. Instructions are on the course web page.

Grading: The course grade will be determined by total points accumulated. Maximum is 660, based on the sum of exams, quizzes, and homework as outlined above. Extra credit adds to your total. Over the years, I have found that letter grades nearly always fall into the following distributions: A/B borderline (85%), B/C (70%), C/D (55%), to pass the course (over 40%).

How to Succeed in This Course: 1) Clarify for yourself what you want/need to get out of this course, 2) participate actively in all course activities, 3) practice solving problems and developing appropriate skills, 4) use the technology and other learning resources that are made available, 5) reflect on what does and doesn't work for you in learning this material, and ask for help. These themes are elaborated in the "Day One" lecture on goals and expectations.

Miscellaneous: University policy will be strictly followed with respect to course withdrawal, incomplete grades, academic honesty, and related subjects. Please ask the instructor or consult the latest PSU Bulletin if you have any questions.

Class Schedule

| <u>Date</u> | <u>D2L/Sapling</u> | <u>Classwork</u> | |
|-------------|-------------------------------|------------------|--------------------------------------|
| T, 9/25 | | Introduction | Chap 1 - Bonding and Structure |
| R, 9/27 | Pre-Quiz 1 | | Chap 1 |
| T, 10/2 | Pre-Quiz 2 | | Chap 2 - Alkanes and Cycloalkanes |
| R, 10/4 | HW 1 | Quiz 1 | Chap 2 |
| T, 10/9 | Pre-Quiz 3 | | Chap 3 - Conformational Analysis |
| R, 10/11 | HW 2 | Quiz 2 | Chap 3 |
| T, 10/16 | PQ4, HW 3 | Quiz 3 | Chap 4 - Alcohols and Alkyl Halides |
| R, 10/18 | Exam 1, Chapters 1 - 3 | | Chap 4 |
| T, 10/23 | Pre-Quiz 5 | | Chap 5 - Alkene Structure and Prep'n |
| R, 10/25 | HW 4 | Quiz 4 | Chap 5 |
| T, 10/30 | PQ6, HW 5 | Quiz 5 | Chap 6 - Alkene Reactions |
| R, 11/1 | | | Chap 6 |
| T, 11/6 | PQ7, HW 6 | Quiz 6 | Chap 7 - Stereochemistry |
| R, 11/8 | Exam 2, Chapters 4 - 6 | | Chap 7 |
| T, 11/13 | Pre-Quiz 8 | | Chap 8 - Nucleophilic Subst |
| R, 11/15 | HW 7 | Quiz 7 | Chap 8 |
| T, 11/20 | HW 8, PQ9 | Quiz 8 | Chap 9 - Alkynes |
| R, 11/22 | <i>Holiday</i> | | |
| T, 11/27 | HW 9 | Quiz 9 | Chap 9 |
| R, 11/29 | Exam 3, Chapters 7 - 9 | | Review |

Pre-quizzes are available on the class website and due at 7:30 am on the day indicated above.

Homeworks are available on Sapling Learning online and due at 7:30 am on the day indicated above.

Quizzes are given at the beginning of the class period (8:00 am) indicated above.

Exams are given for the first 65 minutes of the class period indicated.

FINAL EXAM: Chapters 1 - 9, Thursday, December 6, 8:00 - 9:50 am
