Text: *Linear Algebra: A Modern Introduction*, by David Poole, 2\textsuperscript{nd} edition.

- We will cover chapters 1 – 5: vectors, systems of linear equations, matrices, eigenvalues and eigenvectors, orthogonality and the PSU Notes for sets and functions.
- Homework problems from the text will be assigned for each chapter/section and won’t be collected. The homework solutions will be posted on my webpage: [www.web.pdx.edu/~pablob](http://www.web.pdx.edu/~pablob)
- Exams will be announced in class with at least one week in advance.
- There are **no** make-ups for exams without prior arrangement with the instructor or legitimate excuse such as doctor’s note or funeral service card. A note from employer is not a legitimate excuse.
- On exams, you may use a calculator, one 8 ½ x 11” page of notes (front and back).
- If you have a disability and are in need of academic accommodations, please contact the Office for Students with Disabilities, (503 725 4240) immediately to arrange the necessary supports.
- Cell phones are considered a serious distraction; all cell phones, beepers, music players, and other noisemakers are to be switched off before class begins.
- Cheating on a test or assignment will result in a zero score and possibly additional disciplinary action. For more information, please read the Code of Student Conduct.
- Tutoring services are available, check out [http://www.mth.pdx.edu/resources](http://www.mth.pdx.edu/resources) for schedules. Tutoring is also available through the Skills Enhancement and Tutoring Center (SETC) located on the 4\textsuperscript{th} floor of the Smith Student Union.
- The final exam is cumulative.
- Final exam date and time: Tuesday, June 8\textsuperscript{th}, 19:30-21:20pm
- Grade distribution:
