1. a) Marx identifies three parts to the dialectical process of historical change. Briefly identify each part and explain how they are inter-related.

1. b) Utilizing the description you just provided above, give a concrete example of the dialectic from your own observation or experience (not one used in class).

For Marx, human Species-Being is associated with the Labor Theory of Value.
2. a) What is the Labor Theory of Value?

2. b) What is the connection between these two ideas, i.e., Species Being and the Labor Theory of Value?

2. c) What is Surplus Labor and how is it related to Profit?
