For the man you look up to, the premier nose-hair trimmer!

Dual rotary stainless steel blades, hardened with titanium cutting edges, whirl at 6,000 RPM to cleanly trim nose hair. The chrome-plated ergonomic guide allows trimming to 1/16th of an inch in safety and comfort — without touching sensitive skin; without tugging or pulling. Two LED headlamps make it easy to see exactly what you're doing. Powered by 2 C batteries (not included).

Sharper Image® Turbo-Groomer®
SI679D **\$39.95**

Dual LED "headlamps" last 110,000 hours — or several lifetimes of nose-hair trimming!

The shaver for the rest of your body

Let's be frank: Entire industries address the small task of shaving a man's face; and The Sharper Image has done its part for nose hair — but why stop there? For many men, life could be a whole lot sweeter with a hair-free back, well-groomed shoulders, smooth chest, tidy underarms and neatly-kept areas...well, elsewhere. For this, the cordless, rechargeable Bodygroom™ is the safe, easy way to shave the biggest — as well as the most sensitive — areas of a man's body.

Personal breath alcohol sensor is D.I.Y. for D.U.I.

Advanced semiconductor sensor quickly and accurately estimates Blood Alcohol Content (BAC) using a breath sample. Blow into the mouthpiece for 5 seconds; get a digital LED readout (0.00 to 0.40%) in seconds. Upgraded foolproof design monitors abnormal sensor conditions and ensures a sufficient air sample is tested. Meets rigorous NHTSA (National Highway Traffic Safety Administration) standards. Remember: Never drink and drive.
