Welcome to Braille Cards where we only charge for \$3.00 a piece for the most beautiful, awesome greeting card! This is where you can find greeting cards with text and Braille. As our motto says, "Give the gift of a smile". Make someone you love smile and buy a braille card today.

We all love to receive a greeting card from someone who cares about us, but it's even better to give a greeting card to someone you care about. A greeting card can last forever as it expresses a feeling for a special day, and those memories last forever.

Braille is not a language. It is a code that persons who are blind use to read and write with. If you close your eyes and imagine what life would be like with no sight to read and write. you realize how important Braille is. When you send a greeting card without Braille to someone who is blind, then they have to depend on technology to read it, or wait for someone to read it for them. With a Braille greeting card, a blind person can read it any time and as many times as they want. That's how you give the gift of a smile.

You can purchase an individual card for a special event or purchase a box of 10 assorted cards to send a card throughout the year. Check out the link store and see our entire collection.
