## Scoring Guide for Project K 17"Unsere musik"

Rule of thumb for 4/complete: Vocab list items mostly NOT from core. Clearly used a specialized website / other resource in German. German note is 50+ words, in simple sentences without major distortion throughout. Friend could get around a German website using the advice provided.

	<b>Misc. support kit, questions, etc.) (5%)</b>	<b>Stage 1 explore WWW (10%)</b>	<b>Stage 1 vocab for "like" (10%)</b>	<b>Stage 1 gen. &amp; spec. vocab (2x10%)</b> general = 4 <del>juicy</del>	<b>Write a note (40%)</b>	<b>Explain WWW use (15%)</b> <i>175</i>
6	Twice goes beyond the major parts of the assignment (asks a substantive question, etc.) Includes rich & relevant WWW printouts or similar showing use of language.	4 sites in the target language, representing 3 or more types of site; descriptions go well beyond restating what is obvious from the URL	all 4 equivalents are produced accurately (minor errors outside the core expressions are OK); in one case 2 examples are given; derives 2 equivalents from content-based websites (rather than on-line dictionaries)	Target-language terms are ambitiously chosen, cover a wide range of the topic, and are very accurately reproduced. All English meanings are correct (though not all have to be the specific technical term). <del>be old and not e&amp;.</del>	Has salutation and closing; covers 5 of the 5 specified sub-topics; adds an additional feature. 250 mostly simple words, or 150 words including many that go beyond core vocabulary. Some sentences have 8 or more words and consist of 4 or more syntactic units. "Steals" many words from Stage 1 research. Likely uses past tense in habe-form (allow moderate distortion). Articles show gender; pronouns show case (both can show errors).	Walks the monolingual learner through the whole process of on-line music exploration: where to go, generic website navigation, and specialized terms and procedures for music as a specific activity. Rich citation of target-language <del>but</del> terms; attention to cultural content.
5	nearer 6 than 4	nearer 6 than 4	nearer 6 than 4	nearer 6 than 4 <del>comb, brus</del>	nearer 6 than 4	nearer 6 than 4 <del>elle henn</del>
4	Once goes beyond... Includes some...(see above)	3 sites in the target language, representing 2 or more types of site; some descriptions go beyond restating what is obvious from the URL	offers expressions for all 4 "likes," but one of them is not precise (ex: "give me" for "request politely"); must use a content-based website for one equivalent	Several words are from core vocabulary or are near-exact cognates. Draws words from 2 or more areas of the given topic. Only a few transcription errors. Max one clear error of meaning.	Has salutation or closing. Handles well 4 of the specified sub-topics, or all of them sketchily (or equivalent combination). 200 mostly simple words, or 100 words including some that go beyond core vocabulary. Some sentences have 6 or more words (3 syntactical units). Steals some words from Stage 1 research. Past tense, if needed, is attempted but flawed (Ich * gespielt). Some article gender and attempt at pronoun case.	Gives the essential information about where to go, navigation, and music resources, if only as a bilingual list. Information is not clearly sequenced, in terms of steps to follow or regions of typical screen, but it must be structured (A-Z, etc.)
3	nearer 4 than 2	nearer 4 than 2	nearer 4 than 2	nearer 4 than 2	nearer 4 than 2	nearer 4 than 2
2	support materials sparse and apparently chosen without much thought	2 sites in the target language; one description goes beyond restating what is obvious from the URL	offers expressions for 2 "likes," but one of them is not precise (ex: "give me" for "request politely");	Most words are from core vocabulary or are near-exact cognates. More than a few transcription errors. Several clear errors of meaning.	No salutation or closing. Two of the 5 sub-parts are missing or barely mentioned; handles the others sketchily, mostly by using language from earlier contexts (if that is severely distorted, assign score of 1). Sentences of fewer than 6 words. Steals a word or two. Lives on sein, haben, and a couple other high-frequency verbs.	Bilingual list, minimum 10 terms, without apparent organization.

Project K17 “Unsere Musik – Our Music” – Stage 1

The "Stage 1" worksheet is intended to provide structure to your research activities and to help you find language that you can then apply in your "Stage 2" writing. During your research you will probably want to take notes in addition to what you write on the worksheet.

1. List here at least 3 websites or other music-related resources (music-store catalog, library book, etc.) that you found useful for this project. Give a short description of each (in English, if you want). Aim for these kinds of resources: lists of useful links (for example, clubs where that kind of music is played); personal information about people interested in the music (résumés, chatrooms / bulletin boards); detailed descriptions of the music (often on personal webpages, but also in chats or fan-group electronic newsletters or advertisements for bands); audio and visual resources (MP3 downloads, etc.)

URL or other identification	description
www.dobrejc-bistro.com/bistro.htm	a jazz band website explaining the music and beginning. Found useful for vocab words!
http://artnormal.ralfhafner.de	another fusion jazz band; younger scene, useful for vocab and just plain interesting!
http://www.groko.de	jazz site: highly appraised site. Good music cool web design.
www.jazzpodium.de	Germany's oldest Jazz publication

2. List here two pieces of music from the target culture that you found in your resources, and provide the sources

music (title, group, etc.)	source (URL, etc.)
Origami Jazz Concept	<a href="http://home.arcor.de/toe-b/ojc/intro.com">http://home.arcor.de/toe-b/ojc/intro.com</a>
Sensor	<a href="http://www.sensor-berlin.de">http://www.sensor-berlin.de</a>

3. Using your resources, find expressions for "like" in the senses listed below. Write out the key term ("go for"), quote the surrounding language (so you can steal entire phrases or sentences ["I really really go for traditional Bluegrass"]), and provide the source (URL, probably) of the language found.

English word/phrase	key equivalent	surrounding language	source
to enjoy, find interesting, "go for," etc.	— but which word have we been using in class? ich genoß = I enjoyed		www.dict.tu-chemnitz.de
to request politely something you would like to have	✓ Ich möchte	Ich möchte, das die Fans meine Musik mögen	www.twain.ch
to provide an example ("such as," "for example") or state a similarity ("just like," "close to")	Formen ✓	musette, lateinamerikanische Formen wie Salsa, Tango, und Bossa Nova, Jazz, Gypsy swing...	www.dobrek-bistro.com.htm
"filler" word ("It was like so cool.")	Klingen	Die musikalischen Provinzen klingen nach großer Weit...	www.dobrek-bistro.com.htm

OVER • OVER • OVER • OVER • OVER • OVER • OVER ; OVER • OVER • OVER

sound like

4. From your resources make two vocabulary lists of 10 or more items each

useful general musical terms	
Violinist	Violinist
Proben	rehearsals
Formen	styles
Zutaten	ingredients
letztendlich	in the end
Bassistin	bassist
Klingen	sounds
Genre	genre
traditionellen Formen	traditional form
Lied	song

"juicy" words for describing your special kind of music	
Takt	tune
empathisches Zusammenspiel	emphatic interplay
melancholische Eleganz	melancholic elegance
musikalische Sprache	musical language
Kompositionen	Composer
Klassische Einflüsse	classical influence
Explodierter	<sup>to</sup> explode
Mixtur	Mixture
Ton/Töne	tone/tones
Erhebung	elevation

Note about searching for vocabulary: Expect to find most of your words right on the websites, and in some cases to have to understand them by context rather than looking them up in a dictionary or using the English version of a website. There are two reasons: 1) some of the words that are most useful may well not be in your dictionary; 2) words change meaning over time and space – your dictionary may not give the right word.

Write here for your instructor any questions or requests that will help you on Stage 2.

Do you have any website suggestions to help with the third part (like...) I googled the suggested words "über mich" music,... so on and had a rough time finding examples.

Will talk about in class

You really gained a lot  
from this project - I'm  
very impressed with the  
research & the overall  
effort

## Unsere Musik

Throughout my research of collecting German terms and experiencing many musical websites, I learned a lot about the cultural similarities and differences when looking at a certain genre of fusion jazz. The process I went through made the experience of finding my musical tastes enjoyable, by searching through the World Wide Web.

My process began through the recommended website <http://dmoz.org>, which gave a wide variety of sources to choose from. At first I did not choose fusion jazz, but looked around at many musical groups. I tend to enjoy a wide variety of music and have not one strong taste. I decided on fusion jazz because the sources were solid and interested me. That way I was able to pick and use the websites with the most helpful information.

After I decided on fusion jazz, I looked up the websites through the provided directory. This gave a wide range of German musicians ranging from college groups to a more conservative older crowd. I enjoy seeing the variety fusion jazz allows. A different take on such an experimental medium creates an interesting dynamic between many musicians.

The first page that I explored was a great flash website with much going on. My graphic design interests have made exploring a lot more enjoyable than I thought. The Origami Jazz Concept ([www.home.arcor.de/toe-b/ojc/intro.com](http://www.home.arcor.de/toe-b/ojc/intro.com)) was a really neat website that offered not a lot of german vocab, but great music. I liked the setup of the webpage a lot. The style made the German website comprehensible and able to understand, even if German is not ones core language. I also explored SENSOR ([www.sensor-berlin.de](http://www.sensor-berlin.de)) which didn't give much vocabulary background, but yet the flash

website was really interesting and had a great sense of user interface. The music was great. I enjoy how relatively all the websites explored, mp3's were available to sample the sounds.

The most useful site that I dove into for the german vocabulary and the experience of translation was the Dobrek Bisto group ([www.dobrek-bistro.com/bistro.com](http://www.dobrek-bistro.com/bistro.com)). The website offered a page of pure descriptive reviews and the history of the jazz group. I found the page to be helpful and also the English option was a way to compare the different terms to understand the sentence structure. The majority of the vocabulary taken for my project was from this page. This process I did took a great amount of thought to understand what actually meant what since the german sentence structure differs from English.

The navigation throughout the project was an enjoyable experience. I learned how to define meaning through context and found some great musical groups. The main page I started with was a good source to bookmark because it allows one to find their passions and interests in a well layout form. From that point on, surfing the web can become a complete personal journey to allow two cultures to merge, which lets you see that our cultures are a lot more alike than different, at least in the fusion jazz world.
