

## Scoring Guide for Project K 11: "Einkaufen u. Geschenke • Shopping & Gifts"

Rule of thumb for 4/complete: Vocab list items mostly NOT from core. Clearly used – not just visited - a specialized website in German. German note is 75+ words, in simple sentences without major distortion throughout. Friend could get around a German website using the advice provided.

<u>on time?</u> (10%)	<u>Misc. (support kit, etc.)</u> (10%)	<u>vocab for WWW</u> (10%) & for gift (10%)	<u>explore WWW</u> (10%)	<u>Write a note (40%)</u>	<u>Explain WWW use</u> (10%)
6 turned in within one week after assigned	the major parts of the assignment (rich comments about a site, asks a substantive question, etc.) Includes rich & relevant WWW printouts or similar showing use of language.	Twice goes beyond German terms <del>grat + 10</del> ambitiously chosen (Umsatzsteuer), cover a wide range (computer management, business terms, shipping), and are very accurately reproduced. All English meanings correct (though do not have to be the specific technical term).	Both required sites: lists several items offered at each. Own sites; two or more kinds of site (another like Quelle, own specialized kind, etc.); either more than 3 sites or 3 sites richly described.	Has salutation/closing and 6 of the 16 specified parts (or 5 of them and some new and relevant part). 150 mostly simple words, or 100 words <del>and 21</del> . Some sentences have 8 or more words and consist of 4 or more syntactic units (Ich habe das Geschenk im Internet gefunden.) "Steals" many words from Stage 1 research. Likely uses past tense in habe-ge- form (allow moderate distortion). Articles show gender; pronouns show case (both can show errors).	Walks the monolingual learner through the whole process of on-line shopping: where to go, generic website navigation, and specialized terms and procedures for shopping as a specific activity. Rich citation of German terms; attention to cultural content.
5 within 2 weeks	Nearer 6 than 4	Nearer 6 than 4	Nearer 6 than 4	Nearer 6 than 4	Nearer 6 than 4
4 2 weeks	Once goes beyond... Includes some...	Several words are from core vocabulary (suchen) or are near-exact cognates (Netz-Surfer). Draws words from 2 or more areas (see above). Only a few transcription errors. Max one clear error of meaning.	Both mandatory sites, briefly but accurately itemized. 3 specialized sites, or 2 such and 1 of another kind (Quelle-type, etc.)	Has salutation or closing. Handles well 4 of the specified parts, or all of them sketchily (or equivalent combination). 100 mostly simple words, or 75 words including some that go beyond core vocabulary. Some sentences have 6 or more words (3 syntactical units). Steals some words from Stage 1 research. Past tense, if needed, is attempted but flawed (Ich *gefunden). Some article gender and attempt at pronoun case.	Gives the essential information about where to go, navigation, and basic shopping, if only as a bilingual list. Information is not clearly sequenced, in terms of steps to follow or regions of typical screen, but it must be structured (A-Z, etc.)
3 within 3 wks.	Nearer 4 than 2	Nearer 4 than 2	Nearer 4 than 2	Nearer 4 than 2	Nearer 4 than 2
2 within 4 weeks	support materials sparse and apparently chosen without much thought	Words drawn from just one area (see 6), apparently all from one web page. Easy terms predominate. Several transcription errors and incorrect meanings.	One mandatory site, 2 individualized sites. Gives the 3 types of info for each site.	No salutation or closing. Skips several parts; handles the others sketchily, mostly by using language from earlier contexts (if that is severely distorted, assign score of 1). Sentences of fewer than 6 words. Steals a word or two. Lives on sein and haben.	Bilingual list, minimum 10 terms, without apparent organization.
1 within 5 wks.

## Worksheet for Project K11 "Einkaufen u. Geschenke • Shopping & Gifts"

Note about searching for vocabulary: Expect to find most of your words right on the websites, and in some cases to have to understand them by context rather than looking them up in a dictionary or using the English version of a website. There are two reasons: 1) some of the words that are most useful may well not be in your dictionary; 2) words can have multiple meanings, and meanings change over time and space – your dictionary may not give the right word.

List here 10 or more words that can help someone around in a variety of German-language shopping websites. Don't use core words from the course, such as "sehen" or "Deutschland." Aim for a balance of nouns ("catalog"), verbs ("click") and other words ("top left"). For the three words listed in English, find their German equivalents on the German-language websites.

German	English	German	English
Einkaufskorb	shopping basket (on a website)	Produkt	Product
Schleuderware	bargain basement	Bestellen	to Order
Einkarten	to shop / shopping (NOT "shop/ store/ business" [building])	Kaufhaus	Store
Kataloge	Catalog	Ausverkauf	clearance
Suchen	Search	Verkauft	Sale
Dienstleistungen	Services	Konto	Account
Kontakt	Contact	Sich Eintragen	Sign in

After you find your dream gift, list here 10 or more words that can be useful in describing it so precisely that the gift would not fail to fit that special someone, and that the note related to it would have the appropriate pizazz.

German	English	German	English
Glänzend	Shiny	Knackig	Tasty
Erfahren	Sophisticated or experienced	Schnell	Quick
Stilvoll	Stylish	Leicht zu Bedienen	Easy to use
Gepflegt	Sleek		
Espressomaschinen	Espresso Machine		
Schick	Chic		
Sahnig	Creamy		
Schaumig	Frothy

Peter,

I know it might seem a little complicated, but you can shop online at German-language sites pretty easily even if you don't know the language. When you find a German-language website, you should first look around and see if there are any words or areas on the website you recognize. You can use these words to possibly decipher other words on the website, and the rest you can look up in a dictionary or translator if you need to.

If you know what you're looking for, you can go straight for "katalog", which should have most things in the same areas, as they would be on any English shopping site. You can also search for items by finding an area on the website labeled "suchen", and there you can even search for items in English.

Once you find what you're looking for, you can decide to contact the store directly by finding an area labeled "kontakt". You should also be able to find out just what you need to do to order products online through the company there too. See, it's not very complicated; you just have to follow a few simple guidelines whenever you go to any other-language shopping site.

*But with errors  
sometimes, since  
the computer has  
only single  
words to  
deal with.*
