

Interpretation of the Confidence Interval of the Mean

Conclusion expressed in jargon free, natural, relaxed English

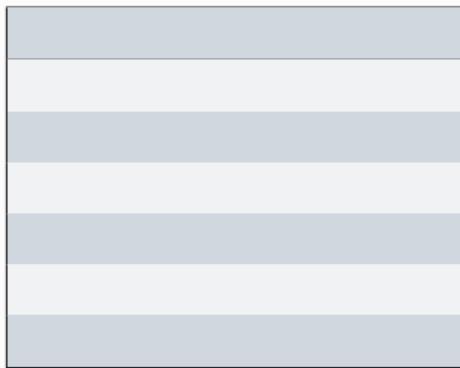

- ▶ Ship times for 15 shipments from a supplier are recorded and the 95% confidence interval calculated, from 7.21 to 8.97 days

Interpretation of the Confidence Interval of the Mean

Conclusion expressed in jargon free, natural, relaxed English

- ▶ Ship times for 15 shipments from a supplier are recorded and the 95% confidence interval calculated, from 7.21 to 8.97 days

Interpretation of the Confidence Interval of the Mean

Conclusion expressed in jargon free, natural, relaxed English

- ▶ Ship times for 15 shipments from a supplier are recorded and the 95% confidence interval calculated, from 7.21 to 8.97 days

Interpretation	Purpose
With 95% confidence,	State the Confidence Level

Interpretation of the Confidence Interval of the Mean

Conclusion expressed in jargon free, natural, relaxed English

- ▶ Ship times for 15 shipments from a supplier are recorded and the 95% confidence interval calculated, from 7.21 to 8.97 days

Interpretation	Purpose
With 95% confidence,	State the Confidence Level
the true average	Unknown population mean, μ

Interpretation of the Confidence Interval of the Mean

Conclusion expressed in jargon free, natural, relaxed English

- ▶ Ship times for 15 shipments from a supplier are recorded and the 95% confidence interval calculated, from 7.21 to 8.97 days

Interpretation	Purpose
With 95% confidence,	State the Confidence Level
the true average	Unknown population mean, μ
shipping time	Variable of interest

Interpretation of the Confidence Interval of the Mean

Conclusion expressed in jargon free, natural, relaxed English

- ▶ Ship times for 15 shipments from a supplier are recorded and the 95% confidence interval calculated, from 7.21 to 8.97 days

Interpretation	Purpose
With 95% confidence,	State the Confidence Level
the true average	Unknown population mean, μ
shipping time	Variable of interest
for this supplier	Generalizability of results

Interpretation of the Confidence Interval of the Mean

Conclusion expressed in jargon free, natural, relaxed English

- ▶ Ship times for 15 shipments from a supplier are recorded and the 95% confidence interval calculated, from 7.21 to 8.97 days

Interpretation	Purpose
With 95% confidence,	State the Confidence Level
the true average	Unknown population mean, μ
shipping time	Variable of interest
for this supplier	Generalizability of results
is somewhere between	CI is a range, not a single value

Interpretation of the Confidence Interval of the Mean

Conclusion expressed in jargon free, natural, relaxed English

- ▶ Ship times for 15 shipments from a supplier are recorded and the 95% confidence interval calculated, from 7.21 to 8.97 days

Interpretation	Purpose
With 95% confidence,	State the Confidence Level
the true average	Unknown population mean, μ
shipping time	Variable of interest
for this supplier	Generalizability of results
is somewhere between	CI is a range, not a single value
$7\frac{1}{5}$ and 9 days	Lower and Upper bounds of CI
