

The Dog Friendliest Neighborhoods of Portland, OR

The above map shows the Portland Metro area and all amenities with their half mile service area.

What area of Portland is best to live in if you own a dog?

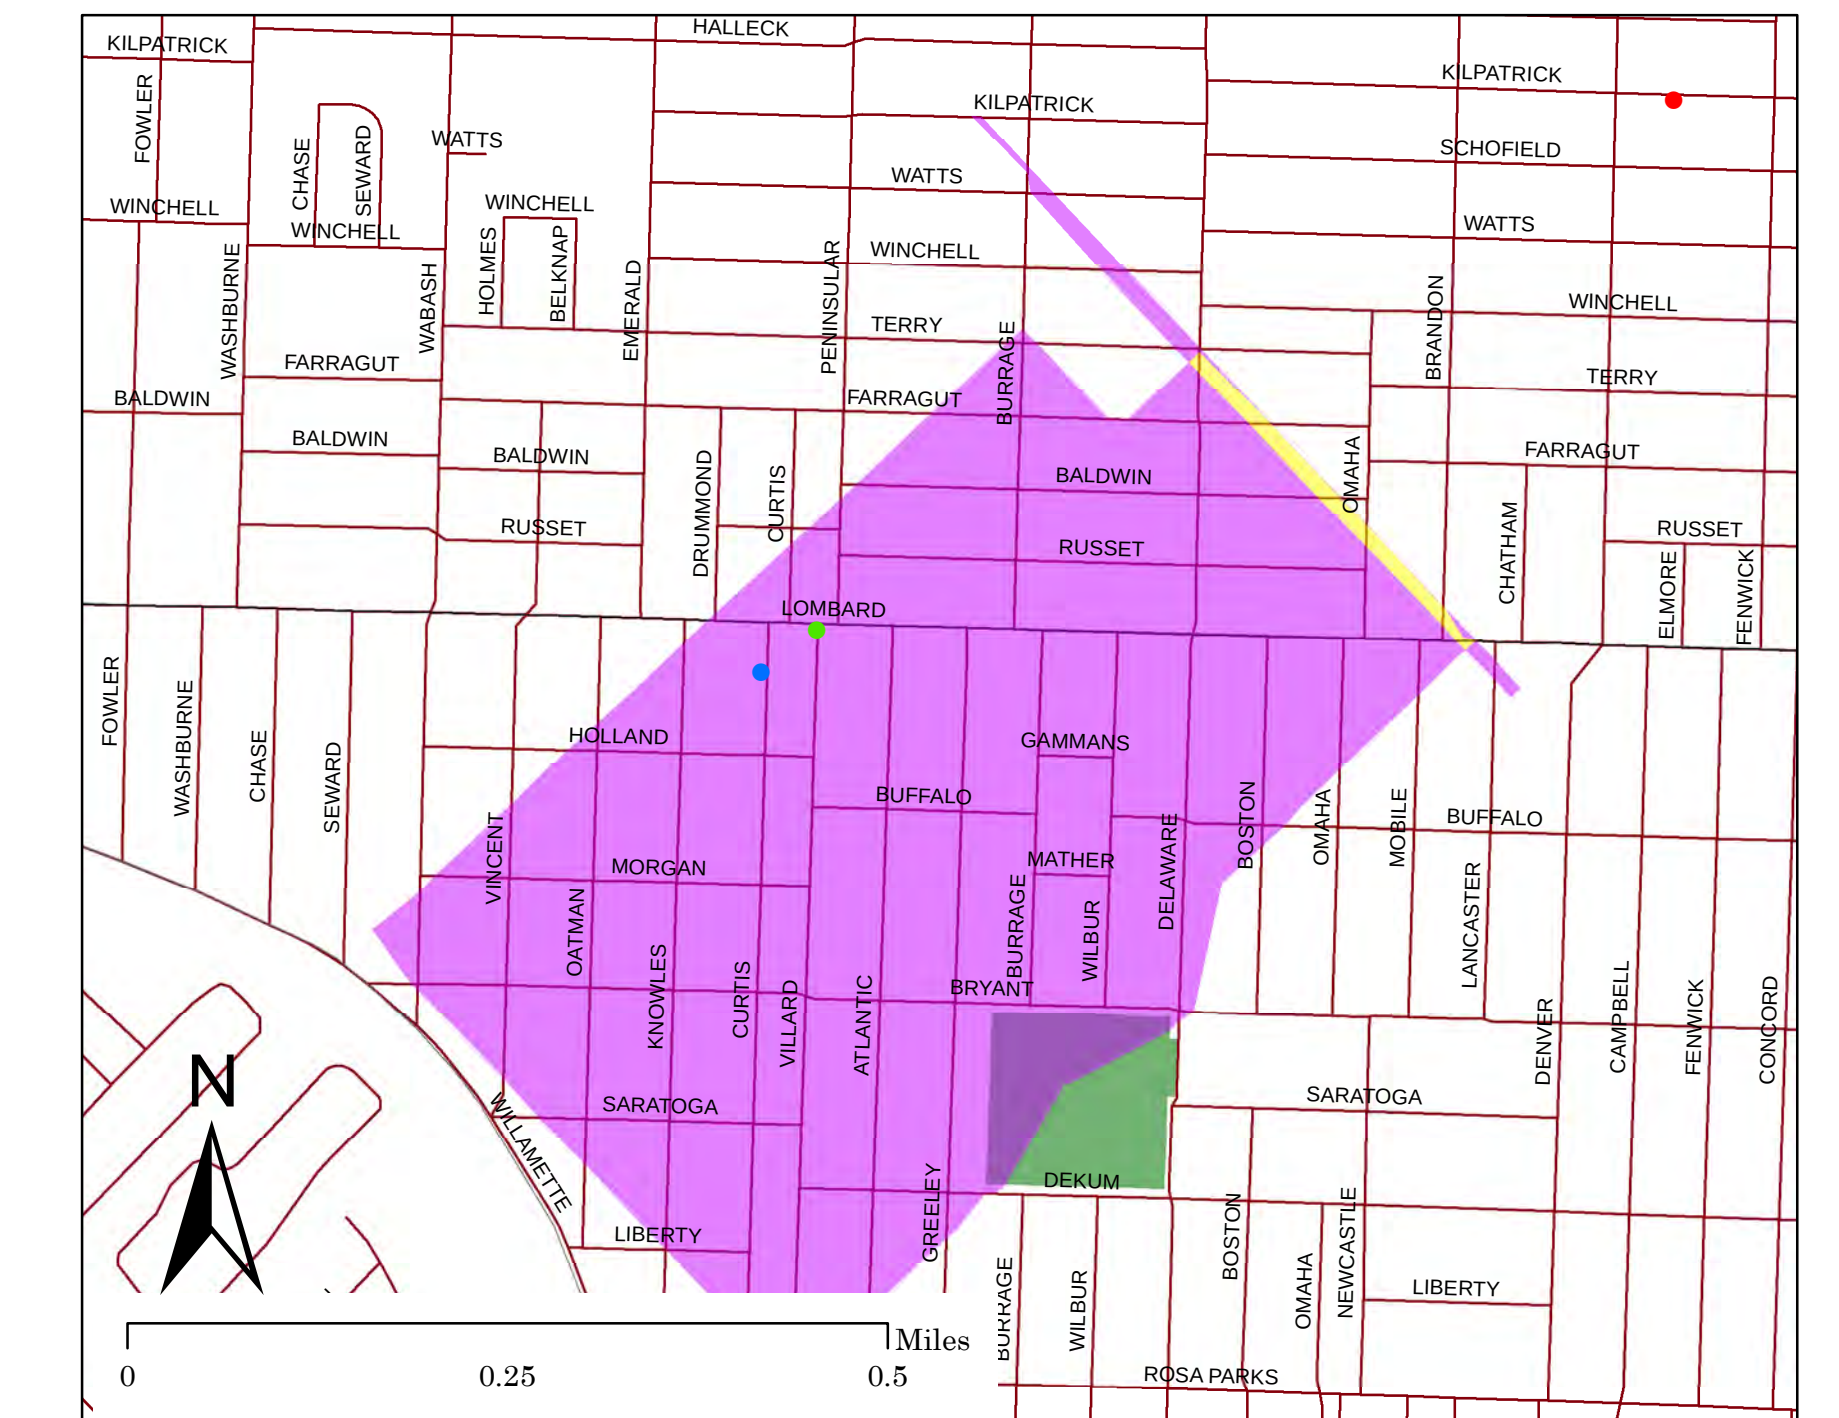

Dog owners know that proximity to dog friendly amenities is important. In order to asses which areas are best we did an analysis with a half mile walk service area.

In our "best" areas, all four of our amenities (vet, pet stores, daycares, parks) are reachable within a 10 minute walk.

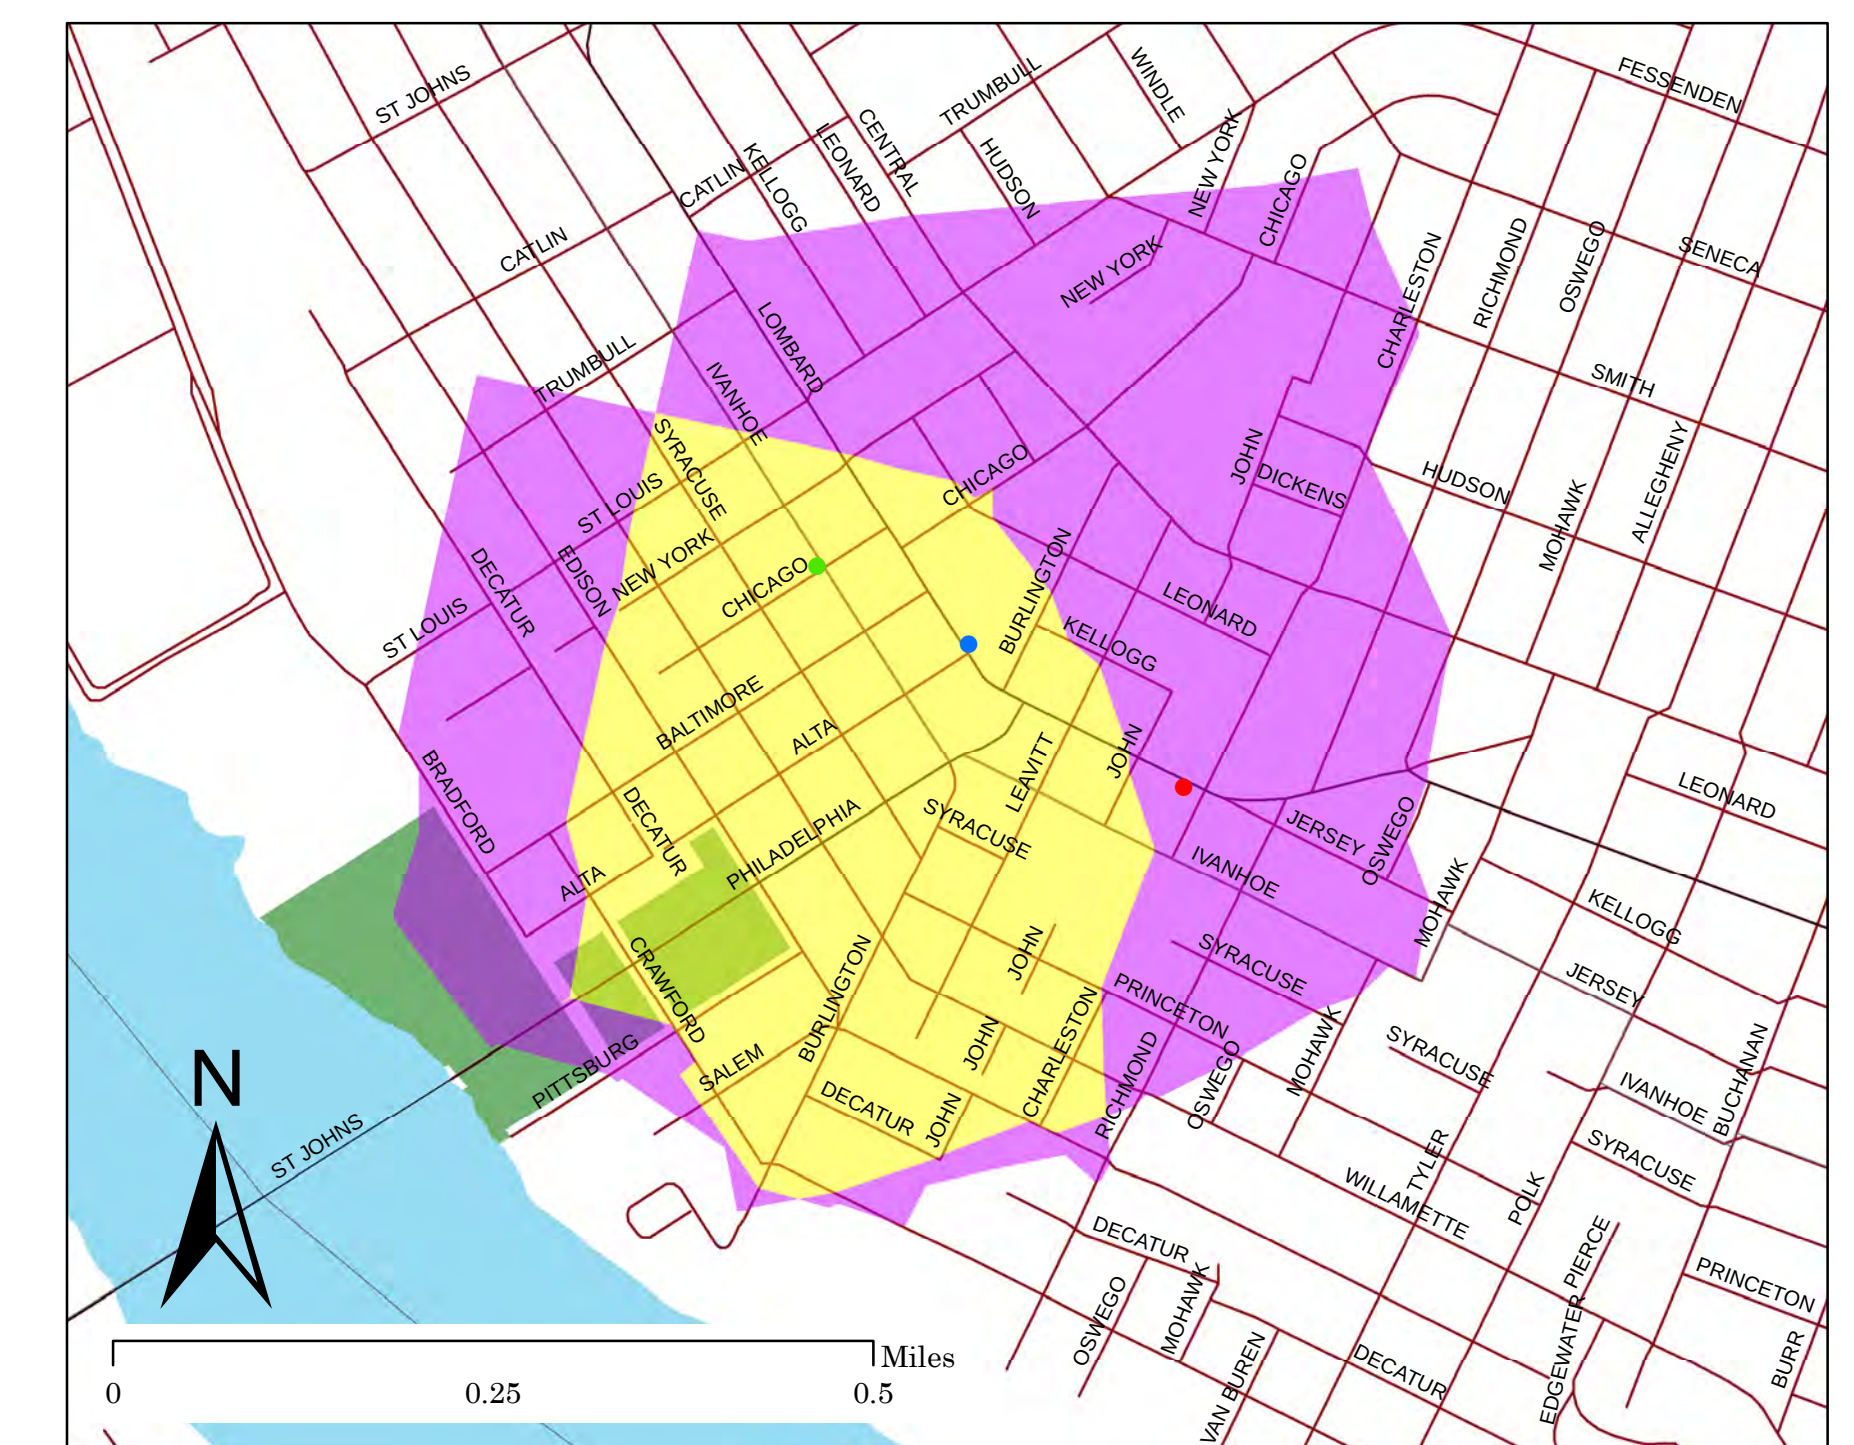

In our "second best" areas, three out of the four amenities are reachable within a 10 minute walk.

The four maps to the right -----> -----> show the best areas up close and are labeled with the Portland neighborhoods in which they fall.
