

G200, Sec 006

Columbia Gorge Field Studies

CRN 11231 (1 credit), Fall 2023

Location: Portland State University & beyond

Pre-trip: 10/27 Fri 14-15:05, CH53

Field trip: 10/28 Sat 8:00-18:00, OFFCAM

Instructor: Dr. Alex Ruzicka

CH 46, 503-725-3372

email: ruzickaa@pdx.edu

Teaching Assistant: Benjamin Agyemang

email: agyemang@pdx.edu

Coyote Wall seen from the Little Moab Trail in the Columbia Gorge in December, 2021. Weather permitting, this feature and others will be seen from the other side of the Columbia River on our trip. [photo credit: A. Ruzicka]

Class website: <https://web.pdx.edu/~ruzickaa/G200-006/index.html> This website will include a copy of the syllabus and a copy of the Workbook that you should print out and bring with you on the field trip.

Canvas: The syllabus and Workbook will be made available through the Canvas learning management system (canvas.pdx.edu) following PSU login.

Course Description: This class is ideally designed for students currently enrolled in an introductory geology class or who have taken such a course in the past. Enrollment is limited to 53 people. Our trip will investigate the geology of the Gorge across the main portion of the Cascades across different climate zones, from the Sandy River on the west, to the Rowena Crest Viewpoint on the east. Much of our route will be on the scenic Old Columbia River Highway, which was built a century ago as a showcase for the ages. During the pre-field trip class meeting students will be introduced to the geology of the Cascades and the Gorge. The Workbook must be turned in to the Instructor or TA no later than Friday 5 PM Nov 10 to be considered on time (it can be emailed as a PDF file that has been scanned), but most students should be able to turn it in before leaving the bus at the end of the field trip. Grades are P/NP only, determined based on attendance for the pre-trip meeting (30%), attendance for the field trip (30%), and completion of the workbook (40%). A minimum score of 71% is needed to pass the course; thus, attendance of both the pre-trip meeting and field trip as well as satisfactory completion of the workbook are required to pass. Transportation costs are included in the registration fee.

What to bring on the field trip: Casual clothes, including rain gear and walking shoes, are appropriate for this field trip. Bring water, lunch, a copy of the Workbook and possibly a digital camera, and a small notebook and writing implement. And a phone if so inclined.

When do we leave? 8:00 AM Saturday Oct. 28. Meet near the corner of Broadway and Mill St, which is at the northeast corner of Cramer Hall, and look for a large bus. We have a long way to go and cannot afford to wait for late students, so get there with plenty of time in advance. Our scheduled return time is 6 PM at the same location.

Communication: email should be the primary means of contacting the Instructor or TA. This can be done with Canvas or through PSU gmail. As with all online communication, it is especially important to keep messages respectful.

Other policies: (a) If you feel you have a disability and need an accommodation, contact the Disability Resource Center (drc@pdx.edu, 503-725-4150). (b) Each student is responsible for all content, whether they participate in the class or not. (c) A culture of professionalism and mutual respect is expected. Any incident of discrimination or discriminatory harassment, including sexual harassment, can be reported to the Office of Equity and Compliance, or the Office of the Dean of Student Life. For resources, see <http://www.pdx.edu/sexual-assault/get-help> (d) Students are expected to follow PSU policies for academic integrity, which means not engaging in academic misconduct; see <https://www.pdx.edu/dos/academic-misconduct>. Examples of misconduct include copying someone else's work, or submitting for credit work done by someone else. (e) Students will complete an acknowledgment form on the syllabus and turn it in before the end of the pre-trip meeting, to indicate that they have read and understand the contents of the syllabus. This will also serve as a record of having attended the pre-trip meeting. Students who do not hand in an Acknowledgment form may be withdrawn.

ACKNOWLEDGMENT OF SYLLABUS RECEIPT:

G200-006 Columbia Gorge Field Trip, CRN 11231 (1 credit), Fall 2023

I have received a copy of the course syllabus for this class, and the instructor has discussed the contents of this syllabus.

NAME (please print) _____
Last First MI

Signature _____

Date _____

Have you had any previous Geology classes. If so, what and where?

What field are you majoring (planning to major) in?

Why did you choose to take this particular class?
