

## Pacific Seacraft 34 Underbody Design Compared to Valiant 32, Wauquiez 35

The images below show three fin keel cruising designs. Comparing the Pacific Seacraft and the Valiant shows a similar elongated fin keel, but the Pacific Seacraft design has a slight bridge between the keel and the skeg, and also has the propeller in an aperture. The Wauquiez (Hal Roth's last boat) design contrasts with the Pacific Seacraft and Valiant designs in having a higher-aspect-ratio fin keel, rather than an elongated fin keel.
