

PORTLAND STATE UNIVERSITY
Department of Chemistry

CH 338 & 339

ORGANIC CHEMISTRY LABORATORY FOR CH 336
Spring 2006

1. Experiments will begin on the first day of lab. Students should be prepared with the following:

- a) Lab Manual for CH 338 or 339 (purchase at Smart Copy, 1915 SW 6th Ave.)
- b) "Organic Laboratory Techniques" by Fessenden, Fessenden & Feist, 3rd Ed. (purchase at bookstore).
- c) Approved safety goggles (These are available at the bookstore. Also the chemistry stockroom sells a package that includes goggles, anti-fog tissue, and two pairs of rubber gloves all at a cost that is less than the retail price of goggles alone.)
- d) Lab notebook (bound, see lab manual for requirements -- purchase at the bookstore).
- e) Proper attire. For safety reasons, the department requires that garments worn in the laboratories (shorts, dresses, cut-offs, etc.) be at least knee-length. In addition, sandals and shoes with open toes are not permitted.

If you aren't properly dressed for the first lab period, you may check in and listen to the lab lead-off, but you will not be able to work.

2. The schedule of experiments is in the PSU lab manual. A downloadable file and other information about the course can be found at the lab website:
<http://chem.pdx.edu/~wamserc/Labs/CH338.html>
<http://chem.pdx.edu/~wamserc/Labs/CH339.html>
3. Students who are registered but don't show up at the beginning of the first lab period will lose their places to any students who are present and want to enroll in the lab. If you aren't able to show up for the first lab but want to maintain your place, contact Dr. Carl Wamser at wamserc@pdx.edu
4. Students on a wait list are not automatically registered if space becomes available. They need to be present at check-in for the first lab, and will receive priority for enrolling if space is available.
5. Students not on a wait list who wish to enroll in a 'closed' section should appear at the beginning of the lab. Registered no-shows are relatively common, and you will be enrolled if space is not claimed.
